September 4, 2020

Sushovan Hussain, DOB: 03/29/1964

To Whom It May Concern:

This letter is to inform that I have seen Sushovan in our office today to evaluate his conditions which includes moderate asthma. He is taking two inhalers to help control both chronic and acute exacerbations of this condition. Physical exam performed today; average peak flow was 300 L/min today, and he has been feeling intermittent shortness of breath. I am recommending that he continue these medications to control any exacerbation of his asthma.

Sincerely,

A handwritten signature in black ink, appearing to read 'William Sellman', written in a cursive style.

William Sellman, MD
